EDUCATION

Flatiron School - New York, NY - 2017

+ Full Stack Web Development, Ruby on Rails/JavaScript

Rutgers University - New Brunswick, NJ - 2014

+ MFA: Visual Arts

Stanford University - Stanford, CA - 2004

+ BA: Studio Art

SKILLS AND LANGUAGES

Ruby on Rails, JavaScript, React, Redux, Node, SQL, ActiveRecord, HTML, CSS, jQuery, Git, GSAP, Photoshop & Illustrator

TECHNICAL EXPERIENCE

Pretty Kitty City - *Adopt a virtual pet and make real life friends. Visit your kitty frequently to stave off certain despair.*

+ Developed back end using Ruby on Rails with MVC pattern and PostgreSQL with bcrypt for password security

+ Designed front end with Materialize and custom SCSS

+ Devised algorithm to modify pet and owner attributes based on user interactions

+ Deployed to Heroku with scheduled Rake tasks

Creamy - *Discover best products for your skincare regimen and keep track of beauty spending.*

+ Executed using Ruby on Rails with MVC pattern

+ Defined database schema and configured ActiveRecord associations

+ Parsed CSV files using Ruby's csv class to seed database

Sandwich Club - *Record favorite sandwich meals in the city and exchange notes with your friends.*

+ Developed using Ruby on Rails with MVC pattern and custom SCSS with handmade drawings

+ Wrote complex forms with nested attributes

Chubby - *A "Snake"-like game in which our protagonist grows in both length and girth.*

+ Created game using JavaScript, jQuery, Koa, and CSS animations and deployed with Docker

+ Applied event-driven system for character mutation

It Do Curate - *Search objects from the collection of Harvard Art Museums and curate your own exhibitions.*

+ Built REST API using Ruby on Rails with MVC pattern incorporating JSON Web Token for authentication

+ Integrated Harvard Art Museums' collections data via their public API

+ Implemented front end with JavaScript using React, Redux, and object-oriented CSS
